

## **Chapleau General Hospital Foundation**

### **Fondation de l'Hôpital Général de Chapleau**

#### **Chapleau will soon have an AutoPulse Thanks to Your Generosity**

The Chapleau General Hospital Foundation is pleased to announce the successful end of the AutoPulse campaign. Chapleau has once again shown its generosity and has raised over \$13,000 in six short weeks.

In August, the AutoPulse was identified by medical staff as a priority piece of equipment. This device performs consistent, quality CPR chest compressions, a difficult task to do manually. Chapleau responded quickly by donating to the cause at the Sept 19<sup>th</sup> yard sale and buying tickets in the ATV raffle.

A few families were also inspired to give to the cause and have helped us reach our goal in record time. Special thanks to the Turcotte family who donated \$2,500 in memory of Rosanne Turcotte and two anonymous donors who donated a combined \$2,500 towards the campaign. As well, long-time Hospital donor the Independent Order of the Odd Fellows gave \$100. Chapleau Health Services staff and board members have also been very supportive of the AutoPulse campaign and have given time, energy, and yard sale items for the cause.

Your contributions will have a lasting impact and will be like an extra pair of hands in our Emergency Room. Anyone who bought a raffle ticket, donated in the yard sale, or gave a special gift has helped keep hearts beating in our community. Thank you for giving back and making a difference for friends and loved ones in our area.
