

Hospital Foundation Pledges to Use Festival of Hope Donation Locally

The Chapleau General Hospital Foundation would like to thank the organizers, volunteers, and donors of the Festival of Hope. On June 20th, we were privileged to attend the first-ever Festival and walk in solidarity with cancer patients, survivors and their families. Chapleau's weather-proof spirit and impressive generosity was on full display.

We were touched by the outpouring of support and trust given to our organization. Thank you for your gift; it will be used to strengthen the local fight against cancer. What is our goal? Our goal is fewer trips away for cancer treatments, training for local health care providers, and modern equipment in our hospital.

To anyone who contributed to the Festival of Hope in any way, you deserve great congratulations on your success. Not only will the Festival be known as a memorable event but as a time when the community came together to make a difference for our friends, families, and neighbours.

For more information on the Chapleau General Hospital Foundation, our Board of Directors and how donations are used go to www.sschs.ca and follow the links or find us on Facebook.
